

# MAGI WE CAN AGREE TO SAVE LIVES

## DVD Offer FACE-OFF: Subject Injury Mock Trial

What happens when a study subject is injured in a clinical trial and sues for damages? Now you can find out.

At the last MAGI conference, world-famous attorneys Alan Milstein and Fred Rom argued a subject injury case based on the facts of a real case. They were the actual plaintiff and defense lawyers in this fascinating case. The case settled, so the plaintiff never got his day in court...until now.

The case raises intriguing issues of ethics, law and justice.

This 99-minute DVD includes the mock trial proceedings and questions at the end for you, the jury, to discuss and answer.

Order today with the form on back.
